¹ Demand balances with domestic banks (except reciprocal balances and balances with private banks and American branches of foreign banks), plus cash items in process of collection.² Reserves actually required are based on deposits at opening of business. The figures in this column, therefore, represent the reserves required to be maintained on the business day following the call date. The requirements as to reserves to be maintained by each member bank are as follows: Time deposits—5 percent for all member banks; net demand deposits—20 percent for central Reserve city banks, 18 percent for Reserve city banks and 12 percent for country banks.³ The figures shown in this column are the differences between reserve balances reported by member banks on the call date and the reserves required to be maintained on the first business day following the call date. They are, therefore, merely approximations of the reserve position of member banks.⁴ The cash in vault and reserve with approved national banking associations.
